

## TIGO ACCESS POINT (TAP)

The Tigo Access Point (TAP) improves the data management of your solar array by wirelessly communicating with Tigo smart modules and retrofit devices. TAP also greatly improves safety with module-level deactivation.

When paired with a Cloud Connect Advanced (CCA), the TAP provides unparalleled visibility into your solar installation.

### VISIBILITY

Communicate directly with TS4 units using the Tigo SMART app on a mobile device for the fastest commissioning.

### SAFETY

Provide grid status to TS4 MLPE for rapid shutdown UL compliance.

### EASE OF INSTALLATION

Improved design flexibility and large inner compartment for quick wiring.
